

Ecology Colloquium summer term 2024

Tuesdays 14:15 - 16:00 in person

Lecture hall: HS 1, other rooms if announced

Date	Speaker (always in person / online only in exceptions)	Topic	Invited by
09/04/2024	Martin Bouda (Hohenheim)	Plant vascular networks mediate ecophysiological function across scales	Frank Schurr
30/04/2024	Prof. Dr. Mutez A. Ahmed	The hidden half of plant water relations: root-soil interactions impacting plant response to drought	Andreas Schweiger
Thursday, 02/05/2024, 14:15, HS17	Andras Baldi (note: extra-day on Thursday, 14:15 - 16:00!), Room HS 17	Maximizing engagement in intergovernmental bodies: high- impact papers, diverse networks, and unexpected insights	Ingo Grass
07/05/2024	Alice Exnerova	Aposematism and mimicry: a bird's-eye view	Georg Petschenka
04/06/2024	Elisabeth Obermaier	Biodiversity research in botanical gardens	Andreas Schweiger
18/06/2024	Jonathan Gershenson	Finding friends in the forest: Bark beetles and their fungal symbionts	Georg Petschenka
25/06/2024	Matthias Schleuning (SBIK-F Frankfurt)	Understanding the ecosystem-level consequences of biodiversity loss using functional traits	Frank Schurr
02/07/2024	Jens Mutke	Regional biodiversity in global environmental and climate change	Andreas Schweiger
09/07/2024	Severin Irl	The ecology and biogeography of quartz islands in South Africa	Andreas Schweiger
